Professional Summary

Full Stack Developer with 1+ years of software engineering experience specializing in **React.js, Node.js, Express.js, Java Spring Boot, Python FastAPI**, and **MySQL, PostgreSQL** database systems. Proven expertise in building real-time scalable systems using **Socket.IO**, developing resilient **SQL transaction billing engines**, integrating **Razorpay payment gateways**, and implementing secure **JWT authentication** with **Redis caching**. Experienced in end-to-end full stack development, Agile SDLC, RESTful API design, continuous deployment pipelines, and enterprise microservices.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python, C#, SQL, HTML5, CSS3
Frontend Technologies: React.js, Next.js, Svelte, Tailwind CSS, Bootstrap 5, Responsive Design
Backend Technologies: Node.js, Express.js, Python, FastAPI, Java Spring Boot, RESTful APIs, ASP.NET
Databases and Caching: MySQL, PostgreSQL, MongoDB, Redis
Tools and DevOps: Git, GitHub, Postman, Maven, VS Code, IntelliJ IDEA, Netlify, CI/CD Pipelines.
Protocols and Architecture: REST APIs, JWT, MVC Architecture, CRUD

Work Experience

Mojija E-Commerce Private Limited August 2025 – Present
Full Stack Developer *Noida, Uttar Pradesh, India*

- Architected and deployed the **NAVAMBHAW** live production platform using **React.js, Node.js, Express.js, MySQL, Python FastAPI**, and **Socket.IO**, achieving **sub-150ms latency** for live audio calls and chat across **5,000+ active users**.
- Engineered a real-time transactional wallet billing engine leveraging **SQL transactions** for per-minute deductions, maintaining **100% ACID consistency** and **zero billing leakage** across 10,000+ live transactions.
- Integrated the **Razorpay payment gateway**, JWT user authorization, and **Redis** caching, cutting API response times by **45%** and seamlessly handling **200+ concurrent astrologer queue requests**.
- Developed the **Digital Kharidi** full-stack e-commerce platform with indexed search filters and cart persistence, boosting page load speeds by **35%** with **99.9% API uptime**.
- Contributed to the **Kaira Jewellery ERP and Website Billing Software** using **Svelte, C#**, and **ASP.NET Core**, reducing manual invoice generation and billing processing time by **40%**.
- Streamlined SDLC workflows by designing standardized Postman API test suites, decreasing post-release bug incidents by **30%**.

Projects

AI Email Writer Assistant | *React.js, Java Spring Boot, OpenAI GPT, Google Gemini, REST API*

- Developed an intelligent AI productivity web application utilizing **OpenAI GPT** and **Google Gemini APIs** to dynamically generate context-aware business emails, reducing drafting turnaround time by **80%**.
- Engineered a scalable **Java Spring Boot REST API** with secure environment-level API key management, request throttling, and token consumption controls.
- Designed a responsive **React.js** frontend with custom tone adjustment, response length tuning, and one-click copy workflows.

Weekend Getaways – Travel Discovery Platform | *React.js, JavaScript, CSS3, Netlify CI/CD*

- Built an interactive travel discovery web application with modular UI components, curated destination cards, dynamic itinerary filtering, and a mobile-first responsive layout.
- Configured a continuous delivery pipeline using **GitHub Actions and Netlify** for automated test builds, linting, and zero-downtime production deployments.

Internships and Training

Ducat School of AI February 2025 – January 2026
Java Full Stack Developer Intern *Noida, Uttar Pradesh, India*

- Completed intensive hands-on software development training, building 5+ enterprise applications using **Java, Spring Boot, Spring Data JPA, Hibernate, JavaScript**, and **MySQL**.
- Designed 3-tier MVC architecture with Controllers, Services, and Repositories with secure REST API endpoints and database persistence.

Education

KK University 2022 – May 2026
Bachelor of Technology in Computer Science and Engineering – ***CGPA: 8.35 / 10.0*** *Nalanda, Bihar, India*
